

1942 Chevrolet 1½-ton Truck

This is a body-off original-condition restoration of a World-War II workhorse. In those dark days trucks virtually identical to this one hauled millions of tons of “Victory” fruit and vegetables to the Libby's cannery across the street. This vehicle is powered by a 235 c.i. Hi-Torque truck engine and features a two-speed rear end, power takeoff and Bendix Hydrovac vacuum-assisted brakes.
